Reciprocity Treaty is Possible Between This Country and Canada to Avert Retaliatory Measures

Danger of Tariff War Recognized by Both Parties and All Concessions Are Proposed.

Washington, March 26.—The settlement of the Canadian-American tariff difficulties now is assured. Secretary Knox made the statement that the conference with Ministers Fielding and Graham is concluded and a friendly understanding was arrived at. The official announcement is expected to be made at Ottawa and Washington March 30.

The effort to avert a tariff war was resumed this morning in a conference between the state department and Canadian Minister W. S. Fielding. It is said that every possible concession permissible under the law will be made to Canada. It is possible that a reciprocity treaty between Canada and the United States may result from negotiations.

Ballinger Not Subpoenaed.

Washington, March 26.—Secretary of the Interior Ballinger will not be called to the stand in the congressional inquiry until his own attorney gives the word. The committee today after an executive session refused to grant the request of Attorney Brandeis, of the prosecution, that Ballinger be called at once.

Attorney Brandeis, representing the prosecution, protested the decision of the committee. He said the refusal to call him denies the opportunity to get at facts. He asked if Ballinger would be called at the close of Mr. Steele's testimony. He was told by Attorney Vertrees, representing the defense, that Ballinger will go on the stand when the defense calls him and not before.

Brandeis said that truthfulness has now become one of the issues in the case. He maintained that Ballinger should be subject to the ordinary tests of veracity used in ordinary cases. He claimed Ballinger had a chance to frame up testimony to accord with the testimony of other witnesses, if he is not called to the stand at once. The decision was held final and argument stopped.

Shackleton's Challenge.

Washington, March 26.—Sir Ernest Shackleton, the British antarctic explorer, announced on the threshold of the white house his purpose to defeat the United States in the race for the south pole. He said he is determined the flag of Great Britain shall float first there. He discussed Arctic and antarctic questions with President Taft. He will deliver a lecture tonight. His audience will include President Taft and the entire diplomatic corps.

The explorer was accompanied all day by James Bryce, English ambassador to the United States. He said he will not lead the English dash for the pole next year, but will personally supervise all the preparations. He says while feeling cordial toward the American people, he is most determined that no other country shall wave its flag over the south pole before England.

Traffic was delayed today by a freight wreck on the Illinois Central just south of Kuttawa. The third section of freight train, No. 155, crossed Poplar creek, when several cars jumped the track and were ditched. The Paducah wrecker was called out to clear the obstruction, but it will be night before traffic is resumed.

Roosevelt is First "Plain Citizen" There

Cairo, March 26.—Roosevelt held a reception on the terrace of Shephard's hotel, this morning. The crowd sang America. Roosevelt declared he is "glad the lions did not do their duty." He visited Cairo university, had luncheon in the Abdin palace as the guest of the Khedive, and will be the guest of honor at a dinner given by Consul General Iddings tonight. All the prominent citizens and officials will be present.

Roosevelt refused to talk politics at this morning's reception on the terrace of Shephard's hotel. It is now known that he is thoroughly conversant with American politics at the present time. He shook hands with all the guests as he formerly did in the white house.

Roosevelt as guest of the Khedive at luncheon was the first foreigner without official rank who ever sat at the Khedive's table. Wu Ting Fang, former Chinese minister to the United States, paid his respects after the colonel arrived back at the hotel. A call is expected from Prince Eitel Frederick, son of the kaiser.

To Build New Church.

Jackson, Tenn., March 26.—At the meeting of the congregation of the Middle avenue church last night it was decided to build a new church and a committee on plans and specifications was appointed. The church when completed will be one of the most up-to-date of the smaller churches of the city.

Gremdale—The Rev. E. E. Willett, pastor St. James.

Chanters—The Rev. C. Van de Pitte, director, Franciscans and Passionists.

Crozier Bearer—The Rev. Eugene Bertillo, Chapeze, Ky.

WALLACE PARK TO BE OPENED MAY 15 FOR THE SUMMER

Many Additions to Amusements and Convenience for the Patrons.

Dea's Band Will Discourse Sweet Music.

MANAGEMENT IS PROGRESSIVE.

Wallace park will be one of the most attractive spots around Paducah this summer, according to the plans that have been outlined by Mr. H. B. Sewall, manager of the Paducah Traction company. For the purpose of making it a recreation place for the people a number of improvements will be made and others are being contemplated.

The regular opening of the park will be May 15, when the season will open in full blast. Flowers have been planted already and arrangements made to keep the lawn in shape all during the season. The park lake will also be improved and kept in shape. This year fishing will be permitted in the lake with the restriction that all fish except sun fish under six inches in length will be thrown back into the lake. This will be pleasant news to the anglers, as there are fish of considerable size in the lake. Next fall it is intended to restock the lake with fish and make it a mecca for anglers.

All the boats will be painted and placed at the service of boating parties, while the bathing house will be improved and conveniences arranged for those who desire to take a dip. Some swans will be secured to reside on the lake, adding to the attractiveness of the place.

Some monkeys will be added to the menagerie, squirrels will inhabit the trees and possibly deer placed in the park. This will interest the youngsters, while other recreations will be provided by swings and plenty of room to romp and play.

Mr. Sewall is progressive and intends to build up the park. In discussing the park he said: "It is our intention to cater to the people. We want to make the park an enjoyable place, where the people may find recreation after the day's work, and especially to supper parties. Long picnic tables will be built so that the picnic parties will not have to spread the supper on the grass. We want in every way to encourage the picnic parties, and have secured advertising matter for the surrounding towns in an effort to interest excursion parties to come to Paducah, where they may see the city and visit the park. Check rooms will be provided for the picnic parties to check baskets. Also it is proposed to have a place where supper may be secured. The plans for this have not matured, but we would like to have a large place screened in where the best food can be served at economical prices. This would enable people to secure lunches at the park without the trouble of bringing the food.

A romantic sight was thrown on the case when it became known that Attorney Pallissard, now demanding the death penalty for Mrs. Sayler, was her youthful sweetheart. Pallissard says: "It is true that Lucy Sayler and I were good friends in our youth. Naturally I feel tender for her. But I have sworn to perform my duty and nothing must be done to stay my hand. It is my misfortune that I must forget my personal sympathy." Golda Sayler today sold her Pomeran dog and piano to raise money for the defense.

Dea's band has been engaged to give the regular Sunday afternoon concerts and three nights during the week. Popular music and classical pieces, such as the people desire, will be played. Dea's orchestra will provide music for the dancing pavilion.

The pavilion will be open for public dances twice each week and the season will be inaugurated with one free dance, which will continue for a while. The dancing pavilion will be open at all times to engagements by private parties, and this season the price will be reduced to \$5 a night. For the accommodation of parties special cars leaving the park before midnight can be chartered at \$2.50, while after midnight the cars will carry parties to the city for \$5.

The "third degree," which is owned by a Louisville company, probably will be operated during the summer. Negotiations are on for the installation of a roller coaster. As many amusements as possible will be installed and it is hoped that the coaster will be secured.

Mr. Sewall stated that the park would be open to automobile and driving parties, and they would be extended the same courtesies as the people who use the cars as a means of transportation to the park. The latest string will be out for the general public.

Easter Egg Hunt.

Tomorrow the park will be open for the annual Easter egg hunt, and it will be besieged by young Americans. On the Chautauqua grounds in the rear of the park several thousand gayly colored eggs have been concealed and at 3:30 o'clock tomorrow afternoon the flag will be dropped and every youngster will be entitled to as many eggs as he can find. Concealed about the premises will be three prize eggs. The child finding the golden egg will receive \$3, the silver egg will be worth \$2 while the bronze egg will bring \$1. A large crowd of elders will be out to see the sport.

Governor Willson Puts Ax to All Appropriation Laws Because The Legislature Provided No Funds

Normal Schools, State University, Tuberculosis Sanatorium and State Fair Meet Same Fate.

NIGHT RIDER CASES.

Frankfort, Ky., March 26. (Special)—Governor Willson vetoed the bill appropriating \$22,500 to each Normal school and \$30,000 to the State University; he vetoed \$38,000 appropriation for the state fair and \$16,000 for the tuberculosis sanatorium; he cut the deaf and dumb school to \$10,000 and the blind institute to \$17,900, and allowed the bill to become a law without signing it. In vetoing the appropriation bills he severely condemned the legislature for failure to provide means for meeting the deficit. He said most of the appropriation bills are fair, but there was no money to pay them.

NIGHT RIDER CASES.

Marion, Ky., March 26. (Special)—In order that there might not be any question regarding the validity of the petit juries, Circuit Judge Gordon adjourned the Crittenden circuit court yesterday afternoon until Monday morning, when the trial of alleged night rider captains will be taken up, while the sheriff is summing up new jurors.

This week the trials of Tom Jones, Alonso Gray, Boone Bush and Ott Peak, alleged night rider captains in the raid on the home of Henry Bennett, were called. Peak is ill of the measles and Gray's mother is critically ill, and their trials were continued. When the trials of Bush and Jones were called the attorneys objected to the jurors, saying that one of the jury commissioners was not a housekeeper and another commissioner was not eligible because he had a case pending in court. Evidence was brought regarding the commissioners, and Judge Gordon decided it would be wise not to leave any gaps.

He dismissed the petit and grand juries, appointed new jury commissioners, refilled the jury wheel, drew the names of new jurors, and adjourned court until Monday so that the sheriff might summon the new jurors. He announced that court will begin promptly Monday morning. Hard fought trials are expected, as the defense has sought to take advantage of every slip the commonwealth might make.

Jackson, Ky., March 26. (Special)—Fire in the business section this morning caused a loss of \$4,000. A number of buildings were burned. For a time it looked as if the town was doomed.

GOMPERS' PARTY STARTS NEXT MAY

HE WILL TELL FARMERS AND UNION MEN WHAT THEY MUST BELIEVE.

St. Louis, March 26.—Labor leaders here have been advised that the new political party proposed by Gompers, president of the Federation of Labor, will be launched in St. Louis, May 8, when Gompers will come here to address the farmers' convention. It is planned to make the party a union of the farmers of the country and men affiliated with union labor. The party platform will be outlined in Gompers' speech to the farmers.

Serving Subpoenas

Elwood Neel, deputy United States marshal, has returned from a trip through Trigg, Lyon, Christian and Caldwell counties, where he has been serving subpoenas on witnesses. Federal court will convene April 18 and a large number of witnesses will be called in the night rider cases. While on his trip Marshal Neel slipped up on about 20 defendants in the night rider suits and served the papers.

Dun's Review.

New York, March 26.—R. G. Dun & company's weekly review of trade says:

Good weather stimulates a large distribution of merchandise and reports from the leading trade centers and particularly those in the west and northwest, speak of activity markets in most lines. The iron and steel trade reports increased business which is especially noteworthy in finished materials. This gain is accompanied by a continued decline in prices for pig iron.

The 10 per cent revision in prices of bleached cottons begun by jobbers has extended to agents and a better volume of new business is coming forward. This revision brings quotations to a basis of nine cents for lonsdale and bales. Revisions, unannounced, are also being made in various other lines, but it is too ear-

The Week In Society.

IN EASTER LAND.

Dawn—it is dawn in the Easter land! Far have our caravans come, and we are at the edge of the desert stand, Looking away to the joys to be. Aye, it is dawn, and we've journeyed far.

Led by the glow of the Easter star,

Who at the gates of the Easter land Bid us good morning, and lead us in?

Children, a world of them, hand in hand,

Palms and processions of lily kin,

Enter! Oh, sad was the march, and long—

Join in the triumphs of Easter song.

All is forgotten on Easter day—

Shadows and fears of the wintry path.

Here at the end of a troubled way,

Fragrant the welcomes the Easter hath.

This is the haven the pilgrims scanned;

Dawn—it is dawn in the Easter land.

Vale Sackcloth and Ashes.

The Lenten season is at its close.

Society has observed it most devoutly and is ready to start afresh on a round of gayety. Easter coming so early this year will give a long spring social season and there is prospect of it being fully utilized. So far, there

are no unusual announcements for Easter week beyond the German club's entertainment, but there are rumors of April being crowded with pleasures. The social clubs, suspended for Lent, will resume. There are rumors of weddings galore, and two already announced will be April affairs, with a round of attendant gayeties—and "showers" for which April is famed.

Easter will be greeted joyously. There has been enough of a hint of the spring-time in the air to make everyone want to shed the winter chrysalis and become a pretty fluttery butterfly, a thing of spring-time charm and summer beauty, in earnest. Should the day be in keeping with its promise the outward attire and the inward spirit will be in delightful unison and beauty.

Easter Ball at Three Links.

Invitations have been issued by the Plain City Lodge of machinists No. 123 for an Easter Ball, at the Three Links building on Monday night. It will mark the close of Lent, and a large number of guests will be present.

Pretty Easter Party.

Little Miss Dorothy Baker Wright, the attractive daughter of Mr. and Mrs. Will Wright, is celebrating her fourth birthday this afternoon from 4 to 6 o'clock with an Easter party at her home, 227 North Ninth street. It is a prettily planned affair and the Easter idea is effectively carried out. The table is charmingly decorated with spring flowers and each small guest has a dainty little basket with a chicken in it and filled with candy eggs at her place. The pink and white color motif is attractively emphasized in the table appointments and in the ices, cakes and candies. About 50 children are invited.

Class Party.

Miss Inez Bell delightfully entertained the members of the graduating class of 1906 of the High school last night at her home, 529 Washington street. The members of the class will meet regularly every month with some member of the class. An enjoyable evening was spent with music and stories of school days. MISS MARY STOCKWELL

The Well Known and Popular Leading Lady

Tells how she came to have a wealth of glossy, beautiful hair. Read her letter.

"I am a constant user of Newbro's Herpicide and can most cordially recommend it as an unsurpassed hair remedy.

"I first came to use it in this way. My hair was originally very long, black and glossy, but after a severe sickness it began to fall terribly and lost all its gloss and loveliness. A friend of mine, to whom I was telling my trouble on a street car, said: 'Why don't you try Herpicide? That will save it,' and pointed laughingly at the 'ad.' with the three funny heads. I thought that having tried nearly everything I might as well try one more remedy. I bought a bottle of Herpicide, without much faith in it, and have used it ever since with the result you see in the picture. My hair stopped falling out, began to grow and has now regained its old time gloss and luster. Much thanks to Herpicide."

PAY DISABLED SOLDIERS.

\$1 a Day Provided in Bill Reported From Committee.

Washington, March 25.—One dollar a day for all old soldiers incapacitated in the service, is provided in a bill reported favorably from the house committee on military affairs by Representative Sherwood (Democrat, Ohio). The bill has been before the committee six or seven years and comes before the house now as an amendment to a measure introduced by Representative Townsend (Republican, Michigan), providing for the retirement of army officers at the age of 70 on one-half or one-third pay, dependent upon length of service.

Representative Sherwood, himself a Civil war veteran, retiring as a brigadier general, was jubilant over the successful reporting of his bill. "I have been trying to get this bill before the house for five years," said Gen. Sherwood. "Last year I got it out by one majority, but Speaker Cannon refused to recognize me to bring it up for consideration. This year I am going to bring it up, or there will be hell to pay."

Daily Thought.
"Never try to succeed by unfair means. Experience proves that honesty is the best policy."

Editorial 1234 789 123
The world doesn't need higher criticism so much as higher authority.

That trip from Cairo to Memphis by camel must have recalled to Roosevelt's mind the comforts of a Mississippi steamboat.

Dr. Wiley predicts that water, wind and alcohol will run the world. At present the three are in anything but a mood to "pull all together."

We heartily recommend that the general council accept the report of Alderman Potter's special Riverside hospital committee and relieve it from its onerous duties. Enough dust has been kicked up by investigating anonymous communications. We receive unsigned letters frequently and throw them all in the waste basket, where they belong.

Governor Wilson need not fear for his reputation. Secretary of State Ben Bruner called Theodore Roosevelt a liar in a speech at Louisville during the campaign for delegates to the last national Republican convention. Ben is not well wired; but he is of fire proof construction, and though his automatic fire alarm system is liable to frequent disturbance, his passions never consume him.

The Louisville Evening Post, disappointed over the distribution of federal patronage in Kentucky, has delved into history in an effort to show that the internal convolution recently sustained by the national Republican party is not merely nature's warning that it has taken some disagreeable morsel into its system, but constitutes symptoms similar to those experienced fifty years ago when national Democracy joined the political haunts. The Post's diagnosis is wrong. This may not be a case of stomach ache; but if the pain is what the Post says it is, it portends the birth of a new party, not necessarily the death of an old.

Professor Crabbe, state school superintendent, will retire. That is not an evidence of the natural retiring disposition of the crab, nor an evidence that, like his crustaceous relatives, he goes backward. Professor Crabbe really is going forward. He will become head of the Eastern Kentucky Normal school. He is the first school man that has been at the head of the Kentucky school system in 20 years. Professor Crabbe is the recipient of praises from the whole state press. He leaves the system in better condition than he found it.

KNOCKING THEIR HEADS TOGETHER.

When Gompers, Mitchell, et al., were sentenced to jail for violating a federal injunction, many hot headed laboring men declared the courts were against them. Now, if the precedent in the Gompers case serves as an excuse for sending the Chicago multi-millionaire packers to jail for the same offense, we shall hear their allies declaring the country is experiencing a reign of anarchy, that capital is being discouraged, that property is in jeopardy. Yet we, of the middle class, who pay the taxes, and fight the wars, and vote without pay or prejudice, and bear the brunt of

strikes and lockouts, and pay the high prices, and "chip in" on all the charity and civic enterprises, and stand the curses of one side and the extortions of the other, trusting in Providence and getting all the good out of life we can, know that it serves them both right. Some of these days we will wake up and take hold of the industrial situation and settle it; but the first step in stopping the fight is always to knock the belligerents' heads together.

THE WHOLE CITY.

It is the boast of a city having the commission form of government that its legislative-executive department represents the whole city, while a general council merely represents wards. Paducahans believe they have a general council, which represents the city, and we shall soon put that faith to the test when the matter of issuing special assessment bonds for streets, sewers and sidewalks comes up for action. We trust that councilmen and aldermen will not try to issue bonds for working over or graveling streets in their wards; but that the bonds will be employed only for paving streets with brick or bituminous or other material and constructing sewers, and that the work will be done first where most needed and most desired. To issue bonds for graveling streets and cause people to pay for ten years with interest on work that will have to be done over before it is paid for is poor economy. This warning is not made, because we believe it is needed; but it is not amiss, and maybe it will save the councilmen from the importunities of their constituents, which is very embarrassing to one, who is trying to represent the whole city, instead of his ward.

PROTECT THE CHILDREN.

The Livington Echo denounced the action of county authorities in placing in jail a 12-year-old girl, accused of trying to poison her foster mother, who had chastised her. It quotes the Kentucky statutes on the subject.

Without confining our remarks to the particular case, as we are not well enough acquainted with it to bear witness, we agree that the Echo is right. To anyone, who has visited a jail and studied the characters confined there, the idea of placing among them a child of impressionable age is abhorrent.

The law says:

"That no child under fourteen years of age shall, under any circumstances, be incarcerated in any county jail or police station, and any officer or person knowingly violating this provision of this act shall be guilty of a misdemeanor and, on conviction in a sum not to exceed one hundred (\$100) dollars."

McCracken county and Paducah now pay a probation officer \$1,200 a year; but if children are to be placed in jail awaiting trial, and then sent to the reform school afterwards, it would seem that with a truant officer supported out of the school money, Paducah's numerous policemen and the county officers, the expense of a juvenile officer is superfluous. But if all the accessories to a properly conducted juvenile court are secured and properly used, the probation officer can prove himself a great advantage to the community.

The usual \$1,800 for the massage artist's salary in the senatorial bathroom was omitted from the appropriation bill. Senators are awakened to the fact that one good coat of whitewash each session is more efficacious than a daily scouring.

THE MIRACLE OF SPRING.

He that hath eyes let him see. Do we wonder at the miracle of the resurrection, when all around us nature is performing the same miracle before our very eyes, as she has been doing every spring time since we were born? The ox roams the field in search of the succulent young grass, stolid and indifferent to the beautiful mystery of creation. No scientist has, or ever can, we verily believe, explain the resurrection of the soul of the grain into the multiplied life of the stalk and ear; and, yet, some folks who do not understand the material world, boast that they are materialists; while others, who do not understand the spiritual world any better, boast that they do not believe the material world exists. Look at the world about you, wonder and admire. It is there, it is real; but be thankful that it is. The ox is indifferent.

Successful Auto Trip.

Roy Gresham returned last night from a three weeks' trip in the interest of the Overland Automobile company and made a record, selling fifty-nine cars. He was at Louisville, Henderson and Lexington and eastern Kentucky. This morning he received word from the factory that its 1910 output has been completely sold out now, and orders will be taken from now on for 1911 deliveries, which won't be made, however, until fall. Mr. Gresham has been called to St. Louis to attend a banquet to be given the sales force Sunday.

—**Robbers Give Up Easily.**

Finding that the rear door of the drug store of S. H. Winstead at Seventh street and Broadway had two locks, a thief gave up the job of robbing the store last night after cutting a hole through the panel. He cut the hole through the door and turned the key, but a latch placed above the lock held the door secure while the thief was unable to reach it.

CARELESS FORGER MAKES A MISTAKE

COPIES NAME OF BANK OFFICIAL IMPROPERLY.

Nevertheless he works Muskogee, Okla., bank for \$3,197.

DRAFT ON CITY NATIONAL

Mispelling a name resulted in the discovery of a worthless draft, being a duplicate of the drafts issued by the City National bank. The bad draft was discovered in New York after the First National bank of Muskogee, Okla., had honored it for \$3,500, and now the police and private detectives are looking for C. E. Elgin, who is alleged to be guilty of publishing it.

February 21 a man went to the City National bank in this city and deposited \$10, and then took out a New York draft on the New York exchange for \$3. Nothing more was heard from the draft until this week when the bank received a telegram, stating that the draft was not original. It appears that after securing the draft Elgin hurried to Muskogee after duplicating the draft and making it read \$3,500 instead of \$3. He appeared as a prosperous man in Muskogee and gained the confidence of the few people he met. He made a purchase of land it is said, and offered the draft in payment, explaining for the bank to retain \$300 in payment. He was handed \$3,200 and after lingering in Muskogee a few days vanished on another prospecting trip.

When the draft was presented to the Importers and Traders bank of New York it was noticed that the draft was signed by "Emmett S. Bagley, assistant cashier," instead of Emmett S. Bagby, assistant cashier.

The man had made an error in signing the assistant cashier's name, and this was the first detection of the duplicate paper. As Elgin has \$3 on deposit in the Paducah bank, the Muskogee bank will be credited with it, and the loss will be \$3,197.

The Proper Thing to Do.
The celebration of Easter is almost as universal as Christmas, and how children love it! All the symbols are so beautiful and even the smallest child may be taught the wonderful significance of the resurrection as it comes to us with every return of spring.

There are many charming devices for entertainment to be given during Easter week, but the time-honored egg hunt is best loved by boys and girls. Let me tell of this original way of varying the "hunt": Have all kinds of eggs, of candy, china, favor eggs and the real fruit of the hen, gilded, silvered and colored. Then make a big score card and put up where it may easily be consulted. Place a value on the different eggs, a gold one to count twenty; silver, ten; blue ones, five; candy ones, four; the very smallest, one, etc. Then for very special prize favor eggs, fifty will be the score. S.S.S. CURES MALARIA

Malaria is a species of blood poverty known as anaemia. It is a condition in which the circulation is so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health.

The medical profession is divided in opinion as to the manner in which malarial poison gets into the blood. Some take the position that it is an atmospheric poison, the specific germs of which are breathed into the lungs and thus transmitted to the circulation. Others advance the opinion that persons become inoculated with the poison through the bites of mosquitoes. All however agree that MALARIA is a blood affection, and any treatment to successfully overcome it must not only purify this vital fluid, but at the same time add the necessary qualities of richness and strength to the circulation.

The malarial poison destroys large numbers of the rich, red corpuscles of the circulation, and the peculiar paleness of anaemic persons is due to this fact. In the first stages of Malaria there is a bilious condition of the system, constant bodily weakness, poor appetite, and a "no account," tired feeling.

A PHYSICAL WRECK.
During 1900 I was running a farm on the Mississippi River, and became so impregnated with malaria that for a year afterwards I was unable to work. I took a number of medicines recommended as blood purifiers, chills cures and other medications, but nothing did me any good until I began to use S.S.S., which I did about a year ago. The result was that after taking S.S.S. for the large size I was as well as strong as I ever was, and have never had a chill since. I expect to take S.S.S. every year for preventive, and would advise everybody else to follow my example.

the guests baskets or silk bags for the spoils and have plenty of assistants to help the children add up their eggs correctly, each one to keep what he or she finds and, besides, have rewards for the best scores. This will add zest to the "hunt" and take fully an hour. If the weather is fine some of the eggs might be hidden out doors. The centerpiece for this party may be a huge egg in a nest of tinsel and imitation grass; on cracking the egg it will be found to contain an egg or Easter favor for each guest.

A sport almost as old as Easter itself is what is called a "fairy bed" or "egg fight." In olden times this fight took place on Easter Sunday before service. The largest clear space in the village was chosen and the lads assembled from far and near. The game consisted in striking an egg first "point to point" with an opponent, then "butt to butt." The clever boy tried to select a very tough shell egg that would knock the other player's all to bits. If the egg were not broken "point to point," the next play was "butt to butt." The victorious egg was called the "cock." Sometimes the "cock" would stand fully an hour. If the weather is fine some of the eggs might be hidden out doors. The centerpiece for this party may be a huge egg in a nest of tinsel and imitation grass; on cracking the egg it will be found to contain an egg or Easter favor for each guest.

Then, by some holy mystery, She fed us from her sacred breast, Soothed us with little birdlike words To rest—to rest—to rest—to rest.

Yet, softly fed us with her life—

Her bosom like the world in May;

Can it be true that men, thus fed, Feed women—as I hear them say?

I wonder if such men as these

Had once a sister with blue eyes,

Kind, as the soothing hand of God,

And as the quiet heaven wise.

I wonder, when all friends had gone, The gay companions, the brave men,

If in some fragile girl they found Their only stay and comrade then.

Shall she who bore the son of God, And made the rose of Sappho's song,

She who saved France, and beat the drum

Of freedom bear this vulgar wrong?

Have no part in the world she made—

Surf of the rainbow, vassal flower—

Save knitting in the afternoon,

And rocking cradles, hour by hour!

—Richard Le Gallienne, in Harper's Weekly.

Book Companionship.

Books are a guide in youth and an entertainment for age. They support us under solitude and keep us from being a burden to ourselves. They help us to forget the woes of men and things; compose our cares and our passions; and lay our disappointments asleep. When we are weary of the living we may repair to the dead, who have nothing of peevishness, pride or design in their conversation.—Jersey Collier.

Lord Granard was once visiting some of his tenants. One of the farms he visited contained a large assortment of live stock in a more than usually healthy state, and halting before a sty he said to the owner:

"Those pigs of yours are in very fine condition." "Yes," agreed the proud farmer, "if we were all as ready to die as them, my lord, we'd do."—Tit-Bits.

WORLD STORIES.

Some of the Great Myths Which Are a Valuable Part of Life.

In the old days, before men understood how this world was made and why so many wonderful things took place in it every day, such, for instance, as the rising and setting of the sun or the coming of spring, the growth of trees and flowers and the falling of rain, in those days they made up stories about those things. Since they knew of nothing more wonderful than the human beings about them, they imagined that all these marvelous results were produced by creatures like themselves, yet different, wiser and more powerful. Thus they thought that every tree contained a dryad, a lovely girl who made the tree grow and brought its fruit to perfection. And all the streams and fountains had their naiads, the sea its mermen and mermaids, and life itself of the people was supposed to be ruled and guided by these beings, to whom they gave various names and ascribed different powers.

Naturally they told each other many wonderful stories about these creatures. Gradually these stories got

written down; and even now, so many thousand years later, we can read them. Our ideals have changed; we no longer believe in fauns and tritons and nymphs. But it would be a pity if we stopped reading these stories because of that. For, in their own way, these tales are as true as the actual facts we learn nowadays of just how the trees and plants do really grow and what it is that makes them seem to rise and set. They are true because they tell how men's minds grew, and began to take hold of the problems of life about them, and tried to explain things and how they realized the beauty and the wonder of the world. These books are true pictures of the lives of these faraway people, and if we had never heard or read them, a great part of

what goes to make us what, nowadays, we are, would never be understood by us.—From Hildegard Haworth's "Books and Reading" in December St. Nicholas.

HOLIDAY QUIET ON STOCK MARKET

IS IN A WAITING ATTITUDE FOR APRIL SETTLEMENTS.

Heavy Offerings of New Securities Have Been Surprisingly Well Taken.

MONEY SITUATION IS SOUND.

New York, March 26. (Special)—

Holiday quiet pervaded the stock market at the close of the week. Many prominent operators are still absent on Easter vacations, and this also tended to discourage activity. The most important feature of the week was the offering of \$50,000,000 New York City 4 1/4s. The issue was a success, inasmuch as it was largely over-subscribed, and the prices realized were fair, considering unfavorable conditions. The credit of New York city is unimpaired, yet bond issues have been coming along with great frequency, and the market has been well if not oversupplied. It is estimated that about \$10,000,000 of this issue were placed abroad, which is satisfactory, especially in view of the fact that conditions generally favor stocks more than bonds. The latter yield only a fixed income, and in times like the present when the cost of living has greatly expanded, those dependent upon investments for their incomes prefer stocks which offer better returns and a chance of increased dividends.

The stock market is in a waiting attitude, and is likely to so remain until the April settlements are over and the labor outlook becomes more clear. Funds withdrawn previous to the first of April for the usual disbursements, do not generally return before the middle of that month, leaving an interval of unsettlement and possible stringency. Money is firm abroad as well as here, and a further advance in the Bank of England rate would not be surprising.

The British political situation somewhat disturbs the London market, as does the low price of Consols, wild promotion of rubber companies, and the large issues of securities in general. It is quite certain that the situation abroad is not as strong as here, and this fact will have to be taken into consideration on the renewal of the bull movement on this side. Possibly Europe might become a seller of Americans on any pronounced rise, a contingency which is not desirable in view of the present condition of our foreign trade, and the indications of renewed gold exports. Of late we have been freely sending securities to Europe in part settlement of an adverse foreign trade balance; and this influx of foreign capital will undoubtedly be a stimulus, not only to this market, but also to the industrial interests which furnish railroad materials.

Aurora, Ill., March 25.—Local option leaders in Aurora are talking of having Gen. Frederick D. Grant lead a parade of children through the streets of Aurora before the close of the campaign, one week from Monday.

A bitter war is being waged against saloons in Aurora. One week from Sunday the local optionists plan to have the children, dressed in white and singing temperance hymns, parade the streets. Children may also be stationed at all polling places on election day. During the voting hours all church bells in the city are to be tolled.

Recently interviewed, he says: "I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and oftentimes a cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and once more feel like myself. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers."—Gilbert's Drug Store.

Heard on the Wharf.
From the Tennessee river the City of Saillie is due here Monday night en route to St. Louis.

Capt. Henry W. Leyhe, Jr., secretary and treasurer of the Eagle Packet company of St. Louis, arrived this morning from St. Louis and will take the Spread Eagle back. She left this morning from the Duck's Neck up the Tennessee, where she remained during the winter.

The towboat T. H. Davis returned to Joppa this morning with ties, having arrived here late yesterday.

The Nashville is due in port this afternoon from Nashville and returns immediately after receiving and discharging freight.

The Electra failed to show up last night from Nashville and arrived today on her way to Evansville.

The Lowry arrived today after being delayed yesterday from Evansville.

Tomorrow afternoon the Dick Fowler will run an Easter excursion to Joppa and return, leaving the wharfboat at 2 o'clock. A large crowd is expected to make the trip.

At the wharfboat the Kentucky is receiving freight this afternoon and is due to leave this evening at 6 o'clock for Riverton, Ala.

The Margaret is due tomorrow from the Cumberland river with ties. Bids will be opened tomorrow by the Illinois Ferry company for the wharfboat to be built at once. Five bids have been submitted as follows: Jim Pruitt, Paducah; G. S. Jones, Paducah; Mr. Cutting, of Metropolis; A. B. Smith Lumber company, Brookport, and L. E. Hacker, Mound City. The lowest and best bidder will be awarded the contract.

Mr. Thomas said this morning the deal would probably be closed Tuesday. The Lamb is now at Cairo where she delivered a tow.

Easter Tide

Easter Heralds the Good Old Springtime,
Springtime Means Housecleaning, Refurnishing Time.

If a store told me, through its newspaper publicity that it could save me money on the things I had to buy—that its store service was par excellent—that its stock of goods was exceptionally complete—that it was strictly a one-price store and that all were assured the same fair treatment as to price—I'd test that store out, and if they did as they said they would I'd be their customer, always; if they didn't, I'd be tempted to leave them entirely alone.

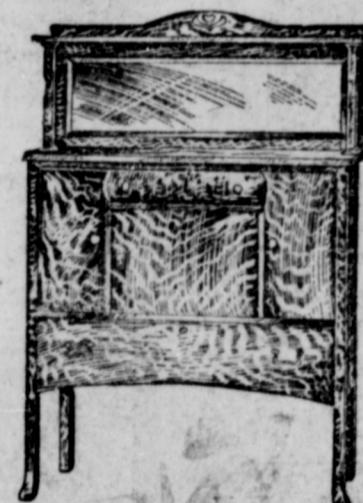

And what we want you to do with us is to try us out—give us the test—we know you will be our customer, always.

Then why not do it, at this spring housecleaning, housefurnishing time?
